

**FOR IMMEDIATE RELEASE:**

**Aspen Inc. Wins and Begins Servicing Graphic Packaging International, Inc.'s Logistics Network**

**Salt Lake City, UT. 09.24.09** – Aspen Inc. receives the go-ahead to operate part of Graphic Packaging International, Inc's (or GPI) logistics network. Aspen will operate a food grade campus site with RF based inventory management solutions in support of GPI's manufacturing facility. The facility went online for Aspen in the early part of September. This operation will grow Aspen's footprint in the inter-mountain region, an area the company has long served with its 30 years of expertise. GPI went to Aspen looking for a long term service provider that would offer them the professional approach, integrity, and the right solutions that would fit their long term strategy and vision for growth. Aspen's focus on innovation, culture of service, and customer based values enabled them to be the most opportune selection.

The RF environment that Aspen is providing allows GPI to view the product's movement in real-time through the Aspen Web Portal, which has a significant advantage to the client, in offering them the ability to quickly respond to the customer and closely monitor product. The customer portal can be simply accessed through the Aspen website. The benefit of Aspen's web based portal is that it offers an easy way for the client to retrieve data on their product. It also empowers the client to know that they can get real time information so long as they have access to an internet connection.

Aspen looks forward to demonstrating its acclaimed services for GPI. The logistics company is confident that it will surpass expectations and provide value. They look forward to fortifying a long-term relationship and growing the operation as GPI succeeds.

Aspen Inc. is a top 100 third party logistics firm who has been in business for over 30 years and operates approximately 2.5 million square feet of modern refrigerated and ambient warehouse facilities along with their own fleet of trucks. Aspen specializes in a variety of value-added services, including co-packing, pick pack, just-in-time inventory management and time sensitive custom deliveries. Aspen is a specialist in the retail and healthcare supply chain and understanding the details involved with shipping to major retailers and grocery chains has been a key to its successes.

Graphic Packaging International, Inc., a subsidiary of Graphic Packaging Holding Company (NYSE:GPK), headquartered in Marietta, Georgia, is a leading provider of paperboard packaging solutions for a wide variety of products to food, beverage and other consumer products companies. The company is one of the largest producers of folding cartons and holds a leading market position in coated-recycled boxboard and specialty bag packaging. The company's customers include some of the most widely recognized companies in the world. Additional information about Graphic Packaging, its business and its products is available on the company's web site at [www.graphicpkg.com](http://www.graphicpkg.com).
